Information

Application brought by

Share in your children's learning journey

Kindyhub has developed a simple, secure and user-friendly mobile app for families. Kindyhub gives families convenient access to view their child's photos, learning and development status, as well as allowing easy communication with your childcare service.

Families can provide valuable input to their child's early learning experiences enabling educators to continually refine and customise the learning journey.

Families enjoy 24/7 access to their child's early learning experiences and retain ownership of all appropriate information uploaded to Kindyhub.

Share News & Information

Parents can receive news and information from educators all in one easily accessible central location

Share Photos with Family

Kindyhub enables families to view photos of their child only plus any group photos sent by the centre.

Secure & Private

Peace of mind knowing children's information is Secure and Private.
